

Homeschool Vibes

Homeschooling - it's cooler than you think!

"CHILDREN LEARN FROM ANYTHING AND EVERYTHING THEY SEE. THEY LEARN WHEREVER THEY ARE, NOT JUST IN SPECIAL LEARNING PLACES."

JOHN HOLT

Benefits of Homeschooling:

- Individualized Education
- Flexible Scheduling
- Quality Family Time

Homeschooling or family-based education has been the primary mode of education for most of recorded history. Our more common institutionalized schooling system is relatively new. In fact, the last compulsory education laws in the United States weren't passed until 1918. The modern homeschooling movement, which was a return to family-based education, began in the 1960's.

Due to that return to family-based education, i.e. homeschooling, you can look around your community and there are doctors, lawyers, entrepreneurs, athletes, artists, engineers, teachers, mothers, fathers, etc. who are products of a home education. There has never been an easier time to homeschool. The available resources and established homeschool support systems are varied and thorough.

Roughly 3% to 4% of school-age children in America are homeschooled. The number of homeschooled students is growing at an estimated 2% to 8% per annum over the past few years.

-National Home Education Research Institute (NHERI)

You can do it!

Happy Homeschooling!
